TIMELINE

FIRST YEAR

The best time to start planning for study abroad is your freshman year. International Studies majors should take some intro-level courses prior to going abroad after consultation with your academic advisor.

SECOND YEAR

Some International Studies students study abroad their second year. You can then fulfill both general education requirements and fulfill some of the International Studies major requirements or electives.

THIRD YEAR

Consult with your advisor to understand when you must take required courses. Your advisor and the office of Explorations/Study Abroad will help you find the courses offered abroad that will count toward your major, minor, or total graduation requirements.

FOURTH YEAR

You can still study abroad during your senior year. However, you must consult with your academic advisor to understand how it may affect your graduation. Your advisor and the office of Explorations/Study Abroad will help you find the courses offered abroad that will count toward your major, minor or total graduation requirements.
