# TIMELINE

## FIRST YEAR

The best time to start planning for study abroad is your first year. Spanish majors should take courses through SPN-202 prior to going abroad after consultation with your academic advisor.

## SECOND YEAR

Some Spanish students study abroad their second year. You can then fulfill both general education requirements and fulfill some of the Spanish major requirements or electives.

## THIRD YEAR

Now you may be more focused on upper-division program courses and electives. Consult with your advisor to understand when you must take required courses. Your advisor and the office of Explorations/ Study Abroad will help find the courses offered abroad that will count toward their major, minor or total graduation requirements.

## FOURTH YEAR

You can still study abroad during your senior year. However, you must consult with your academic advisor to understand how it may affect your graduation. Some required courses and prerequisites may only be available at BW in alternating semesters. Advisors and the office of Explorations/Study Abroad will help find the courses offered abroad that will count toward their major, minor or total graduation requirements.
